

# Indigenous North American Ethnobotany

A public lecture series - three Wednesdays this March at 3:30, in B302 Birge Hall (the lowest level)

## March 14: Nancy Turner

(University of Victoria) *Adam's Gardens: Biodiversity and Traditional Food Production of Indigenous Peoples of Northwestern North America*

## March 21: Jane Mt. Pleasant

(Cornell University) *Reframing North American Indigenous Agriculture: It's the Agronomy, Stupid!*

## March 28: Linda Different Cloud-Jones

(Sitting Bull College & Montana State University) *Restoring Lands, Restoring People: Culturally Important Plants and the Lakota Nation.*

This series is organized by the Laboratory of Ethnobotany, Evolution and Conservation of Crop Plants and Wild Relatives to promote interactions of faculty, post-doctoral fellows, and students interested in ethnobotany. In addition, the series is meant to provide a new venue for interdisciplinary exchanges of ideas and opportunities for intra-campus collaborations. There will be additional events and opportunities to meet the speakers during the 3-day stay of each invited speaker. For more information, please contact Dr. Eve Emshwiller at [emshwiller@wisc.edu](mailto:emshwiller@wisc.edu).

Sponsors include: Botany Department - Women in Science and Engineering Leadership Institute (WISELI) - University Lectures Committee - American Indian Studies (AIS) - Center for Integrated Agricultural Systems (CIAS) - Agroecology MSc Program - Anthropology Department - Center for Culture, History and Environment (CHE) - UW-Madison chapter of SACNAS
